ning of each regular issue of the PCT Gazette.*

WO 2004/017139 A2

(54) Title: **NEGATIVE-WORKING PHOTSENSITIVE COMPOSITION AND NEGATIVE-WORKING PHOTSENSITIVE
PLANOGRAPHIC PRINTING PLATE**

(57) Abstract: A negative-working photosensitive composition comprises (a) an alkali-soluble resin, (b) a compound which causes a crosslinking reaction by an acid, (c) a compound which generates an acid by heating, and (d) a photothermal converting agent, wherein the compound (c) which generates an acid by heating described above is an onium salt of an acidic dye having a sulfonic group in a molecule. A negative-working photosensitive planographic printing plate is provided with a photosensitive layer comprising the negative-working photosensitive composition, on a surface of a support.
